महाराष्ट्र आमयांत्रिकी (स्थापत्य) सेवा मुख्य परीक्षा - 2012

प्रश्नपुस्तिका क्रमांक BOOKLET No.

Code : **V01**

परिक्षा दि १५ व १६ डिसेंबर २०१2

एकूण प्रश्न :

एकूण गुण: 200

प्रश्नपुस्तिका

स्थापत्य अभियांत्रिकी पेपर – 🛚

वेळ : 2 (दोन) तास

सूचना

(1) सदर प्रश्नपुस्तिकेत 100 अनिवार्य प्रश्न आहेत. उमेदवारांनी प्रश्नांची उत्तरे लिहिण्यास सुरुवात करण्यापूर्वी या प्रश्नपुस्तिकेत सर्व प्रश्न आहेत किंवा नाहीत याची खात्री करून घ्यावी. असा तसेच अन्य काही दोष आढळल्यास ही प्रश्नपृस्तिका समवेक्षकांकडून लगेच बदलून ध्यावी.

आपला परीक्षा-क्रमांक ह्या चौकोनांत न विसरता बॉलपेनने लिहावा.

- परीक्षा-क्रमांक शेवटचा अंक केंद्राची संकेताक्षरे
- वर छापलेला प्रश्नपुस्तिका क्रमांक तुमच्या उत्तरपत्रिकेवर विशिष्ट जागी उत्तरपत्रिकेवरील सूचनेप्रमाणे न विसरता नमृद करावा.
- (4) या प्रश्नपुस्तिकेतील प्रत्येक प्रश्नाला 4 पर्यायी उत्तरे सुचिवली असून त्यांना 1, 2, 3 आणि 4 असे क्रमांक दिलेले आहेत. त्या चार उत्तरांपैको सर्वात योग्य उत्तराचा क्रमांक उत्तरपत्रिकेवरील सूचनेप्रमाणे तुमच्या उत्तरपत्रिकेवर नमूद करावा. अशा प्रकारे उत्तरपत्रिकेवर उत्तरक्रमांक नमूद करताना तो संबंधित प्रश्नक्रमांकासमोर छायांकित करून दर्शविला जाईल याची काळजी घ्यावी. ह्याकरिता फक्त काळ्या शाईचे बॉलपेन वापरावे, पेन्सिल वा शाईचे पेन वापरू नये.
- (5) सर्व प्रश्नांना समान गुण आहेत. यास्तव सर्व प्रश्नांची उत्तरे द्यावीत. घाईमूळे चुका होणार नाहीत याची दक्षता घेऊनच शक्य तितक्या वेगाने प्रश्न सोडवावेत. क्रमाने प्रश्न सोडविणे श्रेयस्कर आहे पण एखादा प्रश्न कठीण वाटल्यास त्यावर वेळ न घालविता पुढील प्रश्नाकडे वळावे. अशा प्रकारे शेवटच्या प्रश्नापर्यंत पोहोचल्यानंतर वेळ शिल्लक राहिल्यास कठीण म्हणून वगळलेल्या प्रश्नांकडे परतणे सोईस्कर ठरेल.
- (6) उत्तरपत्रिकेत एकदा नमूद केलेले उत्तर खोडता येणार नाही. नमूद केलेले उत्तर खोड्न नव्याने उत्तर दिल्यास ते तपासले जाणार नाही.
- (7) प्रस्तुत परीक्षेच्या उत्तरपत्रिकांचे मूल्यांकन करताना उमेदवाराच्या उत्तरपत्रिकेतील योग्य उत्तरांनाच गुण दिले जातील. तसेच ''उमेदवाराने वस्तुनिष्ठ बहुपर्यायी स्वरूपाच्या प्रश्नांची अचुक उत्तरेच उत्तरपत्रिकेत नमूद करावीत. अन्यका त्यांच्या उत्तरपत्रिकेत सोडविलेल्या प्रत्येक चार चुकीच्या उत्तरांसाठी एका प्रश्नाचे गुण कजा करण्यात येतील''.

ताकीद

ह्या प्रश्नपत्रिकेसाठी आयोगाने विहित केलेली वेळ संपेपर्यंत ही प्रश्नपुस्तिका आयोगाची मालमत्ता असून ती परीक्षाकक्षात उमेदवाराला परीक्षेसाठी वापरण्यास देण्यात येत आहे. ही वेळ संपेपर्यंत सदर प्रश्नपुस्तिकेची प्रत/प्रती, किंवा सदर प्रश्नपुस्तिकेतील काही आशुध कोणत्याही स्वरूपात प्रत्यक्ष वा अप्रत्यक्षपणे कोणत्याही व्यक्तीस पुरविणे, तसेच प्रसिद्ध करणे हा गुन्हा असून अशी कृती करणाऱ्या व्यक्तीवर शासनाने जारी केलेल्या ''परीक्षांमध्ये होणाऱ्या गैरप्रकारांना प्रतिबंध करण्याबाबतचा अधिनियम-82'' यातील तरतुदीनुसार तसेच प्रजलित कायद्याच्या तरतुदीनुसार कारवाई करण्यात येईल व दोषी व्यक्ती कमाल एक वर्षाच्या कारावासाच्या आणि/किंवा रुपये एक हजार रकमेच्या दंडाच्या शिक्षेस पात्र होईल.

तसेच ह्या प्रश्नपत्रिकेसाठी विहित केलेली वेळ संपण्याआधी ही प्रश्नपुस्तिका अनिधकृतपणे बाळगणे हा सुद्धा गुन्हा असून तसे करणारी व्यक्ती आयोगांच्या कर्मचारीवृंदापैकी, तसेच परीक्षेच्या पर्यवेक्षकीयवृंदापैकी असली तरीही अशा व्यक्तीविरुद्ध उक्त अधिनियमानुसार कारवाई करण्यात येईल व दोषी व्यक्ती शिक्षेस पात्र होईल.

- 40. The fluid flow in the model and the prototype will be dynamically similar if
 - (1) the forces in the two systems are same
 - (2) the two systems are geometrically similar
 - (3) the two systems are kinematically similar
 - (4) the forces at similar points in the two systems have same ratio throughout the flow field
- 41. The main function of the surge tank is to
 - (1) restrict the water hammer effects to small length of penstock
 - (2) provide a free water surface near turbines
 - (3) act as a reservoir
 - (4) protect the penstock from bursting
- 42. In all reaction turbines, the following conditions should be satisfied for maximum efficiency:
 - (1) The velocity of whirl at entrance must be zero
 - (2) The velocity of flow at outlet must zero
 - (3) Velocity of whirl at outlet must be zero
 - (4) Velocity of flow at entrance must be zero
- 43. In centrifugal pump, the inlet angle will be designed to have
 - (1) relative velocity vector in radial direction
 - (2) absolute velocity vector in radial direction
 - (3) velocity of flow to be zero
 - (4) peripheral velocity to be zero

soil and plant factors.

PET is same as the consumptive use of an irrigated crop. (2)

Decrease in PET of an area on the basis of mean annual value reflects an increase in runoff.

The ratio of PET to lake evaporation is always greater than unity.

SPACE FOR ROUGH WORK

- 51. The process by which plants dissipate water from the surface of their leaves, stalks and trunks in known as
 - evaporation **(1)**

(2)evapo-transpiration

(3) delta

- (4)conjunctive use
- Match the following lists: 52.

List I (Plot of)

- Accumulated precipitation vs time in chronological order
- b. Rainfall intensity vs time
- C. Stream flow vs time in chronological order
- Steam discharge vs percent time d. the flow is equalled or exceeded
- d
 - b c a I IV TT
- **(1)** Ш (2)IV II Ш Ι
- II · IV I III (3)
- II IV III **(4)** I

- List II (Name)
- I. Hydrograph
- II. Hyetograph
- Flow-duration curve III.
- Mass curve of rainfall

- If a soil has an infiltration capacity of fe, actual infiltration rate f is given by
 - $f < f_c$ when i < f

(2) f = i when $i > f_c$

 $f = f_c$ when $i < f_c$

(4) $f < f_c$ when i > f

(where i = Rainfall intensity in above options)

- The chemical that is found to be most suitable as water evaporation inhibitor is 54.
 - ethyl alcohol (1)

methyl alcohol

cetyl alcohol (3)

- butyl alcohol
- A peak ordinate of a 4-h unit hydrograph for a catchment is 80 m³/s. The peak ordinate 55. of an 8-h unit hydrograph for the same catchment will be
 - (1) $> 80 \text{ m}^3/\text{s}$

 $= 80 \text{ m}^3/\text{s}$

(3). $< 80 \text{ m}^3/\text{s}$

(4) Data inadequate

Conjunctive use of water in a basin means

56.

	(1)	the sum of evapo-transpiration metabolism.	end th	e amount of water used up in plant
	(2)	combined use of surface and gro	und wat	er Megniirres
	(3)	combined use of water for irriga

- 69. In planning surveys for highways, which of the following studies is concerned with collection of details about the trend of population growth?
 - (1) Engineering studies
- (2) Economic studies

(3) Financial studies

- (4) Traffic studies
- 70. Which of the following statements gives the most suitable meaning of highway alignment?
 - (1) Fixing the direction of highway
 - (2) Deciding the radius of horizontal and vertical curves
 - (3) Determining the gradient of volley and summit curves
 - (4) Layout of the centre line of the highway on ground
- 71. Which of the following values is recommended by IRC as longitudinal friction coefficient for calculation of the stopping sight distance?
 - (1) 0.05 to 0.10

(2) 0.15 to 0.20

(8) 0.25 to 0.30

- (4) 0.35 to 0.40
- 72. Which of the following terms represents cross slope provided to the road surface to drain off the rainwater?
 - (1) Shoulder

(2) Camber

(3) Kerb

- (4) Drain
- 73. Width of the carriageway for single lane as standardised by IRC is
 - (1) 2·44 m

(2) 2·50 m

(3) 3.50 m

- (4) 3.75 m
- 74. The mechanical widening of pavement required on horizontal curve along a two traffic lane road is given by which of the following equations?
 - $(1) \quad \mathbf{W}_{m} = l^2/2\mathbf{R}$

 $(2) \quad W_{\mathbf{m}} = \ell^2 / \mathbf{R}$

(3) $W_m = 2l^2/R$

 $(4) \quad \mathbf{W_m} = l^2 / \sqrt{\mathbf{R}}$
